Bonn, December 2006

Dear Madam/Sir,

On the exhibition grounds of Berlin, the Europe-oriented eHealth Week Berlin 2007 will take place from 16<sup>th</sup> to 20<sup>th</sup> April. It is part of the associated programme of the German EU Council Presidency. Its goal is to discuss possible solutions for cross-border interoperable processes and Europe-wide electronic services. With this priority the eHealth Week 2007 will make an important contribution to improve the health care of citizens in a mobile Europe.

The eHealth Week 2007 will comprise several important events dealing with the application of telematics in the German health care system. One of its core elements will be the High Level eHealth Conference 2007 from 17<sup>th</sup> to 19<sup>th</sup> April 2007. It will be held under the auspices of the German Federal Ministry of Health, the European Commission and the Land Berlin.

I would like to cordially invite you to take part in the eHealth week 2007. It has been envisaged that every member state may send official representatives to attend this event. For five delegates per member state the participation will be free of charge. The member states will also take part in the organization of the programme via the Advisory Board. The programme is going to be finalized in January 2007. You will then receive an individual letter of invitation.

Yours sincerely,
